Two-tone body

How it works

1. Pick a shape and a capacity. We confirm the mould, neck and closure on the drawing before anything is quoted.
2. Stock moulds carry no tooling cost. A new shape is quoted separately, before we start.
3. Samples are chargeable; freight at your cost. The sample date is confirmed when the sample is quoted.
4. Lead time is confirmed per project and fixed in the PI. FOB Guangzhou or Shenzhen.
5. Decoration: silk screen, hot stamp, spray coating. MOQ 5,000 pcs per SKU, one colour.
